Exploring the Basics of Hexa Go Go English Paper Piecing

English paper piecing, a traditional craft dating back centuries, involves sewing fabric around paper templates to create precise and intricate designs. Hexa Go Go takes this technique to new heights, utilizing hexagonal templates to construct captivating geometric quilts.

The process begins with cutting fabric into small hexagons and basting them around paper templates. Once the hexagons are stitched together, the papers are carefully removed, revealing the finished design. The result is a quilt that exudes precision and artistry, with each hexagon seamlessly integrated into the overall composition.
